#### SECTION 4.

Said chapter is further amended by revising Code Section 21-2-419, relating to validation of provisional ballots, and inserting in lieu thereof a new Code Section 21-2-419 to read as follows:

"21-2-419.

(a) A person shall cast a provisional ballot on the same type of ballot that is utilized by the county or municipality for mail-in absentee ballots. Such provisional ballot shall be sealed in double envelopes as provided in Code Section 21-2-384 and shall be deposited by the person casting such ballot in a secure, sealed ballot box.

(b) At the earliest time possible after the casting of a provisional ballot, but no later than the day after the primary or election in which such provisional ballot was cast, the board of registrars of the county or municipality, as the case may be, shall be notified by the election superintendent that provisional ballots were cast in the primary or election and the registrars shall be provided with the documents completed by the person casting the provisional ballot as provided in Code Section 21-2-418. Provisional ballots shall be securely maintained by the election superintendent until a determination has been made concerning their status. The board of registrars shall immediately examine the information contained on such documents and make a good faith effort to determine whether the person casting the provisional ballot was entitled to vote in the primary or election.

(c)(1) If the registrars determine after the polls close, but not later than two days following the primary or election, that the person casting the provisional ballot timely registered to vote and was eligible and entitled to vote in such primary or election or properly applied to register to vote on the day of the primary or election or during the advance voting period under subsection (b) of Code Section 21-2-380 under Code Section 21-2-224.1 and met the qualifications to register to vote, the registrars shall notify the election superintendent and the provisional ballot shall be counted and included in the county or municipality's certified election results.

(2) If the registrars determine after the polls close, but not later than two days following the primary or election, that the person voting the provisional ballot timely registered and was eligible and entitled to vote in the primary or election or properly applied to register to vote on the day of the primary or election or during the advance voting period under

1 subsection (b) of Code Section 21-2-380 under Code Section 21-2-224.1 and met the  
2 qualifications to register to vote, but voted in the wrong precinct or voted the wrong  
3 ballot style or district combination, then the board of registrars shall notify the election  
4 superintendent. The superintendent shall count such person's votes which were cast for  
5 candidates in those races for which the person was entitled to vote but shall not count the  
6 votes cast for candidates in those races in which such person was not entitled to vote.  
7 The superintendent shall order the proper election official at the tabulating center or  
8 precinct to prepare an accurate duplicate ballot containing only those votes cast by such  
9 person in those races in which such person was entitled to vote for processing at the  
10 tabulating center or precinct, which shall be verified in the presence of a witness. Such  
11 duplicate ballot shall be clearly labeled with the word 'Duplicate,' shall bear the  
12 designation of the polling place, and shall be given the same serial number as the original  
13 ballot. The original ballot shall be retained.

14 (3) If the registrars determine that the person casting the provisional ballot did not timely  
15 register to vote or was not eligible or entitled to vote in such primary or election or shall  
16 be unable to determine within two days following such primary or election whether such  
17 person timely registered to vote and was eligible and entitled to vote in such primary or  
18 election, the registrars shall so notify the election superintendent and such ballot shall not  
19 be counted. The election superintendent shall mark or otherwise document that such  
20 ballot was not counted and shall deliver and store such ballots with all other ballots and  
21 election materials as provided in Code Section 21-2-500.

22 (d)(1) The board of registrars shall notify in writing those persons whose provisional  
23 ballots were not counted that their ballots were not counted because of the inability of the  
24 registrars to verify that the persons timely registered to vote or other proper reason. The  
25 registrars shall process the official voter registration application form completed by such  
26 persons pursuant to Code Section 21-2-224.1 or 21-2-418 and shall add such persons to  
27 the electors list if found qualified in order that such persons may vote in future primaries  
28 and elections.

29 (2) The board of registrars shall notify in writing those electors who voted in the wrong  
30 precinct and whose votes were partially counted of their correct precinct."

## 31 SECTION 5.

32 All laws and parts of laws in conflict with this Act are repealed.
